PROFESSIONAL SUMMARY

ERP and financial systems professional with 9+ years delivering, integrating and supporting Sage 300, Sage X3 and Acumatica for finance and operations teams. Implementation Lead for an approximately 18-month, phased, estate-wide Sage 300 implementation, coordinating the client, the development team and a multidisciplinary implementation team from requirements through go-live. Led the Sage X3 finance workstream on each Panni client implementation. Sage X3 Certified Technical, Financial and Distribution Consultant with hands-on depth in business process analysis, GL, AP, AR and Fixed Assets configuration, data migration and reconciliation, UAT and custom integration coordination, including consultant participation in a Sage X3 V11 to V12 upgrade. Now a Senior Support Engineer at Acumatica, resolving complex finance, commerce and integration issues with SQL, diagnostic logs and repeatable testing.

CORE COMPETENCIES

ERP Implementation Leadership | Full-Lifecycle ERP Delivery | Client-Facing Consulting | Business Process & Requirements Analysis | Financial Module Configuration (GL, AP, AR, Fixed Assets) | Financial Systems Integration | Data Migration & Conversion, Validation & Reconciliation | Functional Testing & UAT | Training & Phased Go-Live | Post-Go-Live Support | ERP Upgrade Support | SQL Troubleshooting & Root-Cause Analysis | Stakeholder Coordination | Functional Specifications

SELECTED PROJECT LEADERSHIP

Sage 300 ERP Implementation Lead | Estate management organisation, Lagos, Nigeria **Softcodes International**

Approximately 18 months | Phased, estate-wide implementation | Estate dues, billing, collections and property-related financial transactions

- Led the implementation across its full lifecycle: requirements gathering and process analysis, configuration, data migration and testing, through coordinated user training and phased go-live.
- Directed Sage 300 configuration for estate-wide financial operations, including estate dues, billing, collections and property-related financial transactions.
- Coordinated the client's stakeholders, the development team and a multidisciplinary implementation team, managing implementation activities throughout delivery.
- Coordinated delivery of a custom integration between Sage 300 and the client's existing estate management software, developed by the Softcodes development team.
- Oversaw data migration, testing and validation of estate-wide financial data and processes.

TECHNICAL SKILLS

ERP & financial systems: Sage 300; Sage X3 (V11/V12); Acumatica; General Ledger, Accounts Payable, Accounts Receivable, Fixed Assets, financial reporting; distribution, inventory and commerce workflows

Data & analysis: SQL Server; SQL troubleshooting; data validation; source-to-target mapping; reconciliation; migration testing; Microsoft Excel; Crystal Reports; Sage Enterprise Intelligence

Integration: ERP interfaces; bank payment API to Sage 300 integration; Sage X3 investment and payroll integrations; Acumatica commerce connectors (Shopify, Amazon, BigCommerce); REST and GraphQL APIs; Kibana log analysis

Delivery: Jira; Smartsheet; functional specifications; UAT; user training; case and defect documentation; knowledge-base content

PROFESSIONAL EXPERIENCE

Senior Support Engineer | Acumatica Canada Inc. | Canada **Apr 2026 – Present**

- Investigate complex ERP production issues across financial transactions, commerce, configuration and external integrations, using SQL, diagnostic logs and repeatable testing to separate data, process and system defects.
- Analyze expected versus actual transaction behaviour and trace interdependent workflows to isolate anomalies, document evidence and recommend supported corrective actions or engineering escalations.
- Coordinate with Product, Engineering, Professional Services and Consulting on high-impact cases; communicate risk, business impact, technical constraints and resolution progress to customers and partners.
- Diagnose commerce connector (Shopify, Amazon, BigCommerce) and REST/GraphQL API integration issues using Kibana logs and SQL.
- Create reusable troubleshooting guidance and mentor support colleagues on complex problem analysis and stakeholder communication.

Product Support Specialist | Acumatica Canada Inc. | Canada **Jul 2023 – Mar 2026**

- Supported enterprise finance, inventory, distribution and related transactional workflows, reproducing complex behaviour and assessing process and data impact.
- Reviewed configuration, test results and case evidence with engineering and consulting teams to resolve issues, improve supportability and document findings for accurate hand-offs.

Finance Analyst (Sage X3) | Panni Management & Technology | Remote, Canada **Jun 2022 – Jul 2023**

- Led the Sage X3 finance workstream on each client implementation, for food services, marine and cannabis clients: GL, AP, AR and Fixed Assets requirements, configuration and test scenarios, and financial reporting; validated configuration and resolved financial data issues.
- Led mapping, validation and reconciliation of migrated financial and operational records, investigating mismatches and correcting data-quality exceptions.
- Led functional testing and UAT of financial transaction flows and post-go-live user troubleshooting for the finance workstream.

Senior Technical Consultant | Softcodes International Ltd. | Lagos, Nigeria **Oct 2016 – Dec 2021**

- Implementation Lead for the estate-wide Sage 300 implementation (see Selected Project Leadership).
- Delivered Sage X3 and Sage 300 implementations and advisory support across finance, manufacturing, distribution and other enterprise environments, including a Sage 300 project for a public-sector water utility; translated client requirements into workable system processes.
- Partnered with an internal developer and client stakeholders to integrate a bank payment API with Sage 300 for a financial-services client, aligning payment processing with ERP and finance workflows.
- Supported Sage X3 integrations with investment and payroll applications, resolving data mapping, interface and process issues through cross-functional investigation.
- Led or supported data migration, validation, reconciliation, functional testing, UAT and post-implementation troubleshooting; participated as a consultant in a Sage X3 V11 to V12 upgrade.

PORTFOLIO PROJECTS (SIMULATED, SYNTHETIC DATA)

Independent portfolio simulations built with AI-assisted development; not client engagements. gabtun2t.github.io/Gabriel-portfolio

ERP migration reconciliation lab with root-cause tracing and a corrections journal; mock bank payment API to ERP integration with idempotency keys, retries and an audit trail; SQL checked against SQLite.

EARLIER EXPERIENCE

Software Intern | Sage Software West Africa | Nigeria | Jun 2016 – Sep 2016: Structured training in Sage accounting and business-management software, ERP configuration and support.

IT Consultant | MDS Logistics | Lagos, Nigeria | Mar 2015 – Oct 2015: Supported logistics enterprise applications, data validation, documentation, and inventory and order-processing workflows.

EDUCATION

Master of Technology Entrepreneurship and Innovation (MTEI) | Saint Mary's University, Halifax, NS | 2022 – 2023

Bachelor of Technology, Computer Engineering | Ladoke Akintola University of Technology, Nigeria | 2008 – 2014

CERTIFICATIONS, TRAINING & PRODUCT BADGES

Sage X3 Certified Technical Consultant | Sage X3 Certified Financial Consultant | Sage X3 Certified Distribution Consultant | Sage CRM Certification

Training: Sage X3 Project Management Training

Acumatica product badges: Finance, Distribution, Manufacturing, Commerce
