PROFESSIONAL SUMMARY

Financial systems professional with 9+ years across ERP, payments and financial transaction data, bringing hands-on AML-related transaction review experience to financial crime technology roles. Performed AML-related transaction reviews and KYC-related checks on client workstreams at Panni Management & Technology and Softcodes International, escalated suspicious or inconsistent activity to compliance teams, and distinguished genuine risk indicators from ERP data-quality and migration defects. Strengths in SQL-based investigation, transaction reconciliation, payment API integration and ERP data integrity. Now a Senior Support Engineer at Acumatica, investigating transaction anomalies with SQL, diagnostic logs and repeatable testing. Completed AML training (LinkedIn Learning).

CORE COMPETENCIES

AML Transaction Review & Exception Analysis | KYC-Related Checks | Suspicious Activity Identification & Compliance Escalation | Transaction Data Integrity & Reconciliation | SQL-Based Investigation | Root-Cause Analysis | Distinguishing Risk Indicators from Data Defects | Source-to-Target Data Mapping & Validation | Payment API Integration | Business Requirements, Functional Specifications & UAT | Case Documentation | Stakeholder Communication

TECHNICAL SKILLS

Investigation & data: SQL Server; SQL-based investigation; data validation; source-to-target mapping; reconciliation; migration testing; Microsoft Excel; Crystal Reports

Financial systems: Sage X3 (V11/V12), Sage 300, Acumatica; General Ledger, Accounts Payable, Accounts Receivable, Fixed Assets; commerce and distribution transaction flows

Investigation tools: Kibana log analysis (since 2025); SQL; diagnostic logs; reproducible test scenarios

Payments & integration: Bank payment API to Sage 300 integration; ERP interfaces; REST/GraphQL API-related integration troubleshooting; commerce connector troubleshooting (Shopify, Amazon, BigCommerce); transactional test scenarios

Documentation: Case and defect documentation; functional specifications; UAT; Jira; Smartsheet

Portfolio (simulated): Rule-based transaction monitoring logic, alert scoring, disposition workflow, data lineage and data-quality metrics

PROFESSIONAL EXPERIENCE

Senior Support Engineer | Acumatica Canada Inc. | Canada **Apr 2026 – Present**

- Investigate complex ERP production issues involving financial transactions, commerce and external integrations, using SQL, Kibana log analysis and repeatable testing to distinguish data, process and system defects.
- Analyze expected versus actual transaction behaviour and trace interdependent workflows to isolate anomalies, document evidence and recommend supported corrective actions or engineering escalations.
- Coordinate with Product, Engineering, Professional Services and Consulting on high-impact cases; communicate risk, business impact and resolution progress to customers and partners.
- Prepare clear, evidence-based case documentation and reusable troubleshooting guidance; mentor colleagues on complex problem analysis.

Product Support Specialist | Acumatica Canada Inc. | Canada **Jul 2023 – Mar 2026**

- Supported enterprise finance, inventory, distribution and related transactional workflows, reproducing complex behaviour and assessing process and data impact.
- Since 2025, used Kibana log analysis with SQL and reproducible tests to trace errors, integration failures and transaction behaviour to root cause.
- Reviewed configuration, test results and case evidence with engineering and consulting teams; documented findings for accurate hand-offs and future investigation.

Finance Analyst (Sage X3) | Panni Management & Technology | Remote, Canada **Jun 2022 – Jul 2023**

- Reviewed financial transactions and performed KYC-related checks on AML-related workstreams; flagged suspicious or inconsistent activity to compliance teams.
- Reconciled reviewed transactions against Sage X3 finance records; led validation and reconciliation of migrated financial and operational records and correction of data-quality exceptions.
- Led the Sage X3 finance workstream on each client implementation (GL, AP, AR, Fixed Assets, migration and UAT) for food services, marine and cannabis clients.

Senior Technical Consultant | Softcodes International Ltd. | Lagos, Nigeria **Oct 2016 – Dec 2021**

- Reviewed transactions and performed KYC-related checks for financial-institution, microfinance banking, and oil and gas client projects; traced some exceptions to ERP migration-related data corruption rather than fraud before escalating suspicious findings to compliance teams.
- Implementation Lead for an approximately 18-month, phased Sage 300 implementation, coordinating the client, the development team and the implementation team.
- Partnered with an internal developer and client stakeholders to integrate a bank payment API with Sage 300 for a financial-services client, aligning payment processing with ERP and finance workflows.
- Led or supported data migration, validation, reconciliation, functional testing and UAT across Sage X3 and Sage 300 engagements.

PORTFOLIO PROJECTS (SIMULATED, SYNTHETIC DATA)

Independent portfolio simulations built with AI-assisted development. These are demonstrations, not client engagements or production AML platform experience. gabtun2t.github.io/Gabriel-portfolio

AML transaction monitoring and investigation lab: seven explainable monitoring rules, alert scoring, KYC-related profile review, evidence checklist, disposition workflow with rationale, and exportable case narrative; five of the rules written in SQL and parity-checked against the application logic, plus a SQL ledger-to-ERP cross-check verified to isolate a seeded decimal-shift posting error.

Supporting labs: ERP migration reconciliation with root-cause tracing; mock bank payment API with idempotency, retries and audit trail; financial data pipeline with validation, lineage and data-quality metrics; SQL checked against SQLite.

EARLIER EXPERIENCE

Software Intern | Sage Software West Africa | Nigeria | Jun 2016 – Sep 2016: Structured training in Sage accounting and business-management software, ERP configuration and support.

IT Consultant | MDS Logistics | Lagos, Nigeria | Mar 2015 – Oct 2015: Supported logistics enterprise applications, data validation, documentation, and inventory and order-processing workflows.

TEACHING EXPERIENCE

Contract Instructor | Cambrooks College | Feb 2024 – Present. Contract Instructor | SAIT | Jan 2025 – Aug 2026. Technical instruction and knowledge transfer for adult learners.

EDUCATION

Master of Technology Entrepreneurship and Innovation (MTEI) | Saint Mary's University, Halifax, NS | 2022 – 2023

Bachelor of Technology, Computer Engineering | Ladoke Akintola University of Technology, Nigeria | 2008 – 2014

TRAINING, CERTIFICATIONS & PRODUCT BADGES

Anti-Money Laundering (AML) Training | LinkedIn Learning | Completed

Sage X3 Certified Technical Consultant | Sage X3 Certified Financial Consultant | Sage X3 Certified Distribution Consultant | Sage CRM Certification | Sage X3 Project Management Training

Acumatica product badges: Finance, Distribution, Manufacturing, Commerce
