PROFESSIONAL EXPERIENCE

Senior Support Engineer | Acumatica Canada Inc. | Canada | Apr 2026 – Present

- Investigate complex ERP production issues involving financial transactions, commerce, configuration, and external integrations; use SQL, diagnostic logs, and repeatable testing to distinguish data, process, and system defects.
- Analyze expected versus actual transaction behavior and trace interdependent workflows to isolate anomalies, document evidence, and recommend supported corrective actions or engineering escalations.
- Coordinate with Product, Engineering, Professional Services, and Consulting on high-impact cases; communicate risks, business impact, technical constraints, and resolution progress to customers and partners.
- Prepare clear case documentation and reusable troubleshooting guidance; mentor support colleagues on complex problem analysis and stakeholder communication.

Product Support Specialist | Acumatica Canada Inc. | Canada | Jul 2023 – Mar 2026

- Supported enterprise finance, inventory, distribution, and related transactional workflows, reproducing complex behavior and assessing process and data impacts.
- Reviewed system configuration, test results, and case evidence; worked with engineering and consulting teams to resolve issues and improve supportability.
- Communicated practical remediation guidance to customers and documented findings for accurate handoffs and future investigation.

Finance Analyst (Sage X3) | Panni Management & Technology | Remote, Canada | Jun 2022 – Jul 2023

- Analyzed financial business requirements and supported Sage X3 configurations for GL, AP, AR and Fixed Assets during ERP implementations.
- Mapped, validated, and reconciled migrated financial and operational records; investigated mismatches and supported correction of data-quality exceptions.
- Performed functional testing and UAT for financial transaction flows, documented issues, and supported post-go-live user troubleshooting.
- Reviewed financial transactions and performed KYC-related checks on AML-related workstreams; flagged suspicious or inconsistent activity to compliance teams and reconciled transactions against Sage X3 finance records.

Senior Technical Consultant | Softcodes International Ltd. | Lagos, Nigeria | Oct 2016 – Dec 2021

- Delivered Sage X3 and Sage 300 implementations and advisory support across finance, manufacturing, distribution and other enterprise environments, translating client requirements into workable system processes.
- Partnered with an internal developer and client stakeholders to integrate a bank payment API with Sage 300 for a financial-services client; helped align payment processing with ERP and finance workflows.
- Supported Sage X3 integrations with investment and payroll applications, resolving data mapping, interface, and process issues through cross-functional investigation.
- Led or supported data migration, validation, reconciliation, functional testing, user acceptance, upgrade delivery (Sage X3 V11 to V12), and post-implementation troubleshooting.
- Reviewed transactions and performed KYC-related checks on financial institution, microfinance banking, and oil and gas client projects; escalated suspicious findings to compliance teams and traced some exceptions to ERP migration-related data corruption rather than fraud.

EARLIER EXPERIENCE
