## PROFESSIONAL EXPERIENCE

**Senior Support Engineer** | Acumatica Canada Inc. | Canada — Apr 2026 – Present

- Investigate complex ERP production issues involving financial transactions, commerce, configuration and external integrations; use SQL, diagnostic logs and repeatable testing to distinguish data, process and system defects.
- Analyze expected versus actual transaction behaviour and trace interdependent workflows to isolate anomalies, document evidence, and recommend supported corrective actions or engineering escalations.
- Coordinate with Product, Engineering, Professional Services and Consulting on high-impact cases; communicate risks, business impact, technical constraints and resolution progress to customers and partners.
- Prepare case documentation and reusable troubleshooting guidance; mentor support colleagues on complex problem analysis.

**Product Support Specialist** | Acumatica Canada Inc. | Canada — Jul 2023 – Mar 2026

- Supported enterprise finance, inventory, distribution and related transactional workflows, reproducing complex behaviour and assessing process and data impacts.
- Reviewed system configuration, test results and case evidence; worked with engineering and consulting teams to resolve issues and improve supportability.

**Finance Analyst (Sage X3)** | Panni Management & Technology | Remote, Canada Jun 2022 – Jul 2023

- Analyzed financial business requirements and supported Sage X3 configurations for GL, AP, AR and Fixed Assets during ERP implementations.
- Worked across Sage X3 financial processes, including GL, AP, AR and financial reporting, validating configuration and resolving financial data issues.
- Mapped, validated and reconciled migrated financial and operational records; investigated mismatches and supported correction of data-quality exceptions.
- Performed functional testing and UAT for financial transaction flows, documented issues, and supported post-go-live user troubleshooting.

**Senior Technical Consultant** | Softcodes International Ltd. | Lagos, Nigeria Oct 2016 – Dec 2021

**Implementation Lead, Sage 300: estate management organisation, Lagos (approx. 18 months, phased, estate-wide)**
Led the implementation across its full lifecycle for estate-wide financial operations, including estate dues, billing, collections and property-related financial transactions.

- Led business requirements gathering and process analysis; directed Sage 300 configuration and implementation activities.
- Oversaw data migration, testing and validation.
- Coordinated delivery of a custom integration with the client's existing estate management software, developed by the Softcodes team.
- Coordinated the client's stakeholders, the development team and a multidisciplinary implementation team; coordinated user training, phased deployment and go-live.

**Implementation Lead, Sage 300: public-sector water utility (government project)**

- Delivered Sage X3 and Sage 300 implementations and advisory support across finance, manufacturing, distribution and other enterprise environments, translating client requirements into workable system processes.
- Partnered with an internal developer and client stakeholders to integrate a bank payment API with Sage 300 for a financial-services client; helped align payment processing with ERP and finance workflows.
- Supported Sage X3 integrations with investment and payroll applications, resolving data mapping, interface and process issues through cross-functional investigation.
- Led or supported data migration, validation, reconciliation, functional testing, user acceptance, upgrade delivery (Sage X3 V11 to V12) and post-implementation troubleshooting.

## EARLIER EXPERIENCE

**Software Intern** | Sage Software West Africa | Nigeria | Jun 2016 – Sep 2016: structured training in Sage accounting, business-management software, ERP configurations and support.

**IT Consultant** | MDS Logistics | Lagos, Nigeria | Mar 2015 – Oct 2015: supported logistics enterprise applications, data validation, documentation, and inventory / order-processing workflows.
